

EQUIPPED FOR ANYTHING

LISTA DUO AND SOLO WORKSTATION SYSTEMS FOR
ASSEMBLY, LABORATORY AND OFFICE

LISTA DUO: THE WORKSTATION SYSTEM FOR DEMANDING TASKS

The LISTA Duo worktable is the ideal base for a wide range of applications in assembly and laboratories. With its contemporary yet robust design, it is ideal for the most varied of tasks. The model impresses with its extreme rigidity and versatility thanks to its ability to be flexibly expanded into a complete workstation system with a wide range of accessories and add-on components - for maximum ergonomics and productivity even during challenging tasks.

High stability with a load capacity of up to 400 kg

LISTA Duo with optional assembly for expansion as a workstation system

LISTA SOLO: THE ALL-ROUNDER FOR LIGHTER WORK

With the LISTA Solo, you get the perfect all-round table for lighter tasks in a wide range of industries and sectors, from electrical engineering to healthcare, assembly, laboratories or offices. The model can be expanded into a complete workstation system with accessories and add-on components, making it flexibly adaptable to individual requirements.

Good stability with a load capacity of up to 200 kg

LISTA Solo with optional assembly and drawer cabinet body
